Profile

I'm a painter with a few years of experience working in fine arts commissions, both digital and physical. I'm currently creating works that are focused on contemporary queerness. I recently returned to my career in art, and am actively seeking professional opportunities to showcase my work in galleries around Boston and the Cape.

My portfolio of work is available upon request.

Bio

Born in 1986 in Brazil, Zee Giesbrecht (he/they) is a queer artist currently residing in Hingham, Massachusetts. Working primarily with art that concerns LGBTQIA+ body identity, intimate relationships and queer consciousness. His works aim to explore these themes through an emotional representation of identities that are in movement, always in constant construction and deconstruction. To express that idea, he tends to choose an intersection of liquid and dry mediums: bright ever-flowing watercolors juxtaposed with solid charcoal presented in fast, rough, disconnected lines.

Zee is a graduate of the Faculty of Fine Arts of The University of Lisbon. He has exhibited internationally in Brazil, at the MIS (Museu da Imagem e do Som) and in Portugal. He is a member of a local organization (Hull Artists) of artists who aim to promote the arts throughout Massachusetts's South Shore.
